COMPREHENSIVE RISK ASSESSMENT

Want Visibility into Your Cyber Risks?

We provide a full risk assessment that identifies your cyber security vulnerabilities as well as recommendations to remove these risks along with a Comprehensive Security Roadmap.

What We Asses:

1. **Policies and Procedures** – We review and identify gaps in your current policies and procedures.
2. **IT Asset Inventory** – We review all tools and systems currently in use within your organization.
3. **Network Vulnerability Test** – We perform extensive testing on your network to look for any weaknesses.
4. **30- Day Employee Phishing Test** – We test your employees' response to potentially malicious emails.

What You Get:
Comprehensive Report & Roadmap to make you organization more secure!

Let us identify your cyber vulnerabilities!

Call **800-214-2107** or email **Contact@OnDefend.com** to get started.
